TEACHING METHODOLOGY

LEARNING OBJECTIVES OF THE SUBJECT

The main objective of the subject is the introduction to landscape architecture from a project approach to the discipline. The contents to be developed have a theoretical and practical approach, based on the analysis of specialized bibliography and the study of a selection of the most representative landscape architecture projects according to the main themes developed in the different scales of the landscape, from the grand staircase to the small staircase
The subject is developed in three blocks: 1. the condition of support, 2. reveal capabilities and work in condition: the plant element; 3. inclusive dynamics
